CORN—(Sweet or Sugar) *POL. Zboze* *It. Grano Saraceno*

CULTURE.—Plant in hills 3 ft. apart each way, and five or six kernels in a hill. Hoe often, drawing soil up to stem after first hoeing. Break off side shoots. Make ground very rich. If stable manure is used, it is perhaps best to plow it under. Use broadcast or in the hill Our Garden Fertilizer, worked well into soil. It has been found very beneficial to sow these fertilizers between the rows before cultivating and hoeing the second time.

We have been very careful in selecting the best and sweetest varieties of corn adapted to this section. The list below is arranged in order as they would mature. If two or more varieties are selected and planted at same time, they would be ready for the table at different times, one following the other.

Mushroom Bed

MUSHROOM SPAWN

Pol. *Grzyb* It. *Fungo*

CULTURE.—Mushrooms are more easily cultivated than many people imagine and may be grown in any room or cellar where the temperature can be maintained at from 50 to 65 degrees. For the beds use a mixture of three parts horse droppings and one part good fresh loam. Before being placed in the bed, let the manure be put in some dry place to sweeten, mixing it thoroughly and turning it three or four times, when the loam may be added. Upon a dry firm bottom, make the bed by spreading a thin layer of the prepared mixture, pounding it firm, and continue this, till the bed is twelve inches thick. Leave it thus for about a week, or until the temperature has subsided to 85 degrees. Then make holes about ten inches apart, and put in each a piece of spawn about the size of an egg. Press the spawn firmly into the compost about two inches, leaving the top uncovered to allow the excess of heat and moisture to pass off without injury to the germs. After ten days, fill the holes and cover the whole bed with two inches of fresh loam, and over this place a few inches of straw. If the temperature is right, mushrooms will appear in six or eight weeks from the time of spawning. The bed will continue bearing from four to six weeks. If the surface of the bed becomes dry at any time, it should be moistened freely with water at a temperature of 90 to 100 degrees.

Our stock of spawn is replaced a number of times during the season and is giving excellent results.

CULTURE.—For Peas, light dry soil is best. Sow as early as ground can be worked, and again every ten days for succession. Peas may be sown as late as August 15th. Medium and late Peas must be planted early. Early Peas may be planted early or late, and the extra early very late. Sow in single or double rows from 4 to 6 feet apart, according to variety, and about an inch apart in the row and 4 in. deep. Hoe often, keep ground clean and fine. Most Dwarf Peas will bear better if bushed enough to keep them from the ground. If the pea louse attacks the vines, spray every day with clear water of the same temperature as the atmosphere, using force.

FLOWER SEEDS— SWEET PEAS

Grandiflora Varieties

Our list of Sweet Peas has been carefully revised with a view of keeping it strictly up to date. White seeded varieties should not be sown until the ground is comparatively dry and warm. If sown under wet and cold conditions the seed may rot in the ground. With few exceptions Sweet Peas are black seeded and do not appear to be affected like the white seeded sorts.

"PLANET JR."
NO. 25

Combined Hill and Drill Seeder, Double
 Wheel Hoe, Cultivator and Plow. Hopper holds
 two and one-half quarts. Substantial and
 accurate, two good machines in one.
 As a drill it is almost identical with
 the No. 4 Drill. As a wheel hoe it
 is identical with the No. 12 Double
 Wheel Hoe. Price \$21.50.

"PLANET JR."
NO. 17

Single Wheel Hoe

Consists of one pair 6 in. hoes,
 three cultivator teeth, one garden
 plow. Price as shown, \$7.75.

Flowering Bulbs in Their Season

LILIES, TULIPS, NARCISSUS, HYACINTHS,
CROCUS, JONQUILS, ETC.

We import direct from Holland. They
are fine strong bulbs and will produce good
bloom. We carry Gladiolus and Dahlia bulbs
in their season. We procure for you at short
notice any flowering bulbs wanted.

WE ARE AGENTS
